SOIL FUME CAPS, one capsule treats one bushel of soil; five capsules \$1.00. Enough to treat five bushels of soil for one dollar. This is one of the newest methods of soil treatment. Very easy to handle.

I have many, many other varieties available but not in large enough quantities to list. However, if you are interested in some particular varieties feel free to write and I will do my best to take care of you.

Plan to visit me north edge of town on U. S. Highway No. 11, see the new and older varieties of African Violets. This will offer you an excellent opportunity to check the varieties you like best.

Open every day—Sunday after 2:00 P. M.
